

Clean & Easy Conveyor Systems

See how **Select Technologies, Inc.** can help with sanitary conveyors and seamless system integration.

SANITARY CONVEYORS

SANITARY CONVEYORS: With strict food manufacturing requirements, it is difficult to save time and simplify the process while meeting sanitation guidelines. With our sanitary conveyor, **you can do it all.**

◆ Save Time

- A quick release belt makes removal, replacement and inspection easy
- No nuts or bolts are required to install or remove the in-feed and exit-feed chutes

◆ Conveyor Features

- 304 and 316 stainless steel construction
- All rod bedway for conveyor belt support
- V-guide conveyor belt option for easy belt tracking
- Corrosion resistant thermoplastic bearings with stainless steel bearing inserts
- AB variable frequency drive & controls

◆ Cleanability

- An all-round, continuously welded tube frame makes wash down easy
- Sanitary design reduces areas where bacteria can harbor

◆ Design Options

- Incline, uplift, z-style, flat bed and trough-style designs
- Movable conveyor with casters or fixed floor mount
- Fully enclosed stainless steel motorized drive pulley available

Additional Services: Select Technologies, Inc. is a full service industrial integrator specializing in a wide range of services.

◆ Material Handling

Case, Pallet, Process,
De-palletizing, Palletizing

◆ Process Controls

Clean In Place Systems,
Production Control Systems,
Product Chilling, Oven Control

◆ Facility Controls

Ammonia Refrigeration,
Compressed Air Systems,
Sanitary Air Handling

◆ Client Services

Project Coordination,
Project Management,
Design, Installation, Startup
